

DERMASMART POSTMAN NEGATIVE TEST HATALARININ RAPORLANMASI:

1-Login-wrong password: başarılı

The image displays two screenshots from the Postman application, showing the results of a negative test for the 'Login - Invalid Email Format' endpoint. The top screenshot shows the 'Request' tab, where the request body is a JSON object:

```
{  "email": "invalid-email",  "password": "123456"}
```

. The bottom screenshot shows the 'Response' tab, where the response is a JSON object:

```
{  "message": "Email veya şifre hatalı."}
```

. Both screenshots indicate a 401 status code, 5 ms execution time, and 184 B response size.

Request:

```
1 {
2   "email": "invalid-email",
3   "password": "123456"
4 }
```

Response:

```
1 {
2   "message": "Email veya şifre hatalı."
3 }
```

2-Login-empty password: başarılı

The image displays two screenshots from the Postman application, showing the results of a negative test for the 'Login - Empty Password' endpoint. The top screenshot shows the 'Request' tab, where the request body is a JSON object:

```
{  "email": "test@test.com",  "password": ""}
```

. The bottom screenshot shows the 'Response' tab, where the response is a JSON object:

```
{  "message": "Email veya şifre hatalı."}
```

. Both screenshots indicate a 401 status code, 5 ms execution time, and 184 B response size.

Request:

```
1 {
2   "email": "test@test.com",
3   "password": ""
4 }
```

Response:

```
1 {
2   "message": "Email veya şifre hatalı."
3 }
```

3-Login-empty e-mail: başarılı

POST DermaSmart Auth Negative Tests > Login - Empty Email

Response Headers **Request** 401 • 7 ms • 184 B

5-Login-empty body: başarılı

The image displays two screenshots of a REST client interface, likely Postman, showing test results for a login endpoint.

Test 1: Login - Empty Body

- Method: POST
- Path: DermaSmart Auth Negative Tests > Login - Empty Body
- Status: 200
- Time: 7 ms
- Size: 184 B
- Response:

```
1 {}
```

Test 2: Login - Invalid Email Format

- Method: POST
- Path: DermaSmart Auth Negative Tests > Login - Invalid Email Format
- Status: 401
- Time: 5 ms
- Size: 184 B
- Response:

```
1 {  
2   "message": "Email veya şifre hatalı."  
3 }
```

6-Register-invalid e-mail format: başarısız
